

Agency of Natural Resources (ANR) Internship Program

Internships enrich educational experiences because they let you have real life experience and they are an exciting way to put real life experiences into your education. – Intern Supervisor, Department of Environmental Conservation

ANR PROTECTS, SUSTAINS AND ENHANCES VERMONT'S NATURAL RESOURCES FOR THE BENEFIT OF THIS AND FUTURE GENERATIONS. From ensuring water and air quality to protecting endangered and threatened species, ANR offers a diversity of programs covering the full range of environmental issues.

WE WELCOME INTERNSHIP APPLICATIONS FROM COLLEGE STUDENTS AND GRADUATES. Specific projects are often designed **after** a student contacts us. This way, the student's interests and training can best be accommodated. Internships are designed by the site supervisor to provide a relevant and beneficial project for both the student and ANR. Supervisors provide training and support to ensure a meaningful educational experience.

WHAT SOME RECENT INTERNS HAVE SAID ABOUT THEIR ANR EXPERIENCE.

The internship gave me the freedom to complete my own work and come up with a mutually beneficial project. It was definitely the most efficient way to begin my thesis – something real.

My ANR internship is one of the top three experiences of my four years of college.

It has been a pleasure working with you on this project. I hope that we see water quality improvement as a result of our efforts. Please keep me updated regarding your progress.

ANR SUPERVISOR REFLECTIONS

You have demonstrated a great work ethic in taking initiative and dedication to the tasks at hand. We have several great work products now as a result of your good work.

Great attitude and very professional from the initial interview to the final meeting. Positive interactions with ANR staff. A joy to work with.

IF YOU WOULD LIKE TO PURSUE AN ANR INTERNSHIP, PLEASE COMPLETE AN APPLICATION:
